

# 2D Machine Control System for Motor Graders

## System Five

Upgrade and Gain That  
Competitive Edge

# Easy-to-Use Operator Interface with Durable Time-Tested Components

**Grade at speed with precise vertical control**

**Compensate for blade wear while you are working**

**High slope capabilities (up to 100%)**

**“Smartknobs” – complete remote operator interface**

**Upgradeable to 3D machine control systems**

**Proportional hydraulics provide quick and accurate control of the blade**

## System Five Control Box

- Large, graphical backlit LCD
- Bright, multi-color LED's display continuous grade information
- Simple push button switches and grade knob operation
- Performance settings with secure access allows custom valve response tailoring for optimum performance for your grader
- Upgradeable flash memory from a PC or laptop, in the office or in the field

## Trackerjack Laser Receiver

- 360° gapless receiving
- Motorized receiver gets on-grade and “locks-on” to keep it there
- Bright grade indication LED's display continuous grade information
- Compatible with all Topcon lasers

## Sonic Tracker II®

- High-resolution sonics for application versatility using references such as: elevated stringline, surface string, poured curbs, or an existing surface
- Rugged cast housing with completely sealed internal electronics
- Easy to attach and position over reference
- Bright grade indication LED's display continuous grade information

## Slope Sensor

- 100% slope capable
- Exclusive anti-slosh ceramic technology
- Completely sealed internal electronics
- Rugged cast housing
