

Topcon XTEND

Horizon Software Feature

Boost efficiency and flow by adding Horizon UI to your personal devices.

Access many Horizon software features directly on your mobile device

XTEND displays key interface functions to mobile devices, working with proven, easy-to-use Horizon in-cab field software

Topcon Horizon software brings XTEND, a connectivity feature extending Horizon UI windows and elements to virtually any modern iOS or Android mobile device. Use as an additional screen in-cab or even outside for calibrations and loading activities.

Horizon Software XTEND provides a cost-effective path to add displays for key functions to improve operating efficiency.

Display:

- » Guidance
- » Universal Terminal (UT)
- » Sprayer Controller
- » Seeder Controller
- » Seeder Blockage
- » Boom Height Control
